About Us:

The city that crafted a vision of what the future could be like shimmers in the night with the continually peaking skyline that dots the landscape. Giving a shape to this masterful dream is one of the most ambitious business conglomerates in the Abu Dhabi, Al Hamily that continually surges forward with a 27 % Growth Rate. Brought to life more than two decades ago, in 1980 Al Hamily that was created by individuals who imagined an incredible future, this symbol of change now nets in approximately 3.6 Million AED in Revenue every month.

Armed with 7,00,000 AED and just 3 staff members Al Hamily steadily trudged through two decades and grew to become a multi-faceted organization that provides a range of services and products including Renovation, Sale, Purchase, Coordination of Development, Distributing ADNOC-LUBE for the entire Western region that covers 80 percent area of UAE along with the sale of an assortment of items including Building Materials, Electrical and Hardware Products. Now with over 90 proficient Core members working for Al Hamily that utilize their extensive experience in the process of development and convert what were mere ideas on paper into a stand out, world service, property or product. Drawing our strength from the tremendous expertise of our engineers, visionaries, management officials and the overall experience in the field of Construction and Productive Development, we at Al Hamily are geared to recreate the skyline of the world.

Al Hamily has got the construction of Luxury Vilas down to an art and right from purchasing to developing the design, acquiring the necessary approvals, accumulating the financial resources, creating the marketing strategies and finally building the property for usage while maintaining safety and security at all times, we involve ourselves in all the intricacies of the project. While working towards any of our world class projects, Al Hamily takes into account all factors that influence the process of development like environmental, economic, physical and political issues. All the aspects that constitute the process of Real Estate Development are comprehensively analyzed by a team of in-house professionals that comprises:

- Architects, Landscape Architects, and Site Planners who look after the project design
- Market Consultants that survey the demands and the economics of the project
- Attorneys who look after the legal aspects including agreements and approvals from the government
- Environmental Consultants and Soils Engineers who assess the physical limitations of the site and its impact on the environment
- Surveyors and Title Companies that shed light on the legal descriptions of that particular property
- Safety regulations officers who ensure that the project is carried out hassle free
- Experienced visionaries who steer the project towards its potentiality and finally
- Complete adherence to international Safety rules and regulations at all times
